Bathroom Tissue

Airborne germs from flush may land on toilet roll surface. Toilet paper has the perfect absorbency to harbour bacteria.<sup>1</sup>

The bacteria particles from a flush can float in the air around your washroom for up to 90 mins.<sup>2</sup>

Experts agree that tissue dispensers are one of the most important objects within the washroom environment to disinfect.<sup>3</sup>

Two of the top important factors for taking toilet paper from a dispenser are: toilet paper is kept hygienic and the dispenser is hygienic.<sup>4</sup>

## A Bathroom Tissue System that delivers Hygiene and Efficiency

### Enhance Hygiene

Fully enclosed system to help reduce the risk of cross contamination

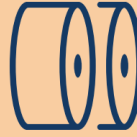

Single sheet dispensing so you only touch the sheet you use to help enhance hygiene

Smooth and "no dirt traps" designed dispenser allows quick and easy one-wipe clean

### Enhance Efficiency

High capacity jumbo roll format, helps to reduce refill frequency

**28%** ↓

Innovative controlled dispensing system helps to reduce bathroom tissue usage by 28%<sup>4</sup>

Each roll of Scott® Control Center Pull bathroom tissue can serve 432 users vs. 176 users from conventional JRT, helping to reduce janitorial maintenance and minimize run-out<sup>4</sup>

More than 80% of users surveyed agree that single sheet dispensing is more convenient<sup>5</sup>

### A Sustainable Choice:

By choosing this product, you are supporting responsible management of the world's forests.

## Product Information

Code	Product Description	Color/Ply	Size/Rolls Length	Case Content	FSC Certified
 25350	Scott® Control Center Pull Bathroom Tissue	White/2ply	350m (1750 sheets, 200mm x 105mm)	12 rolls per case	✓
 07046	Scott® Control Center Pull Bathroom Tissue Dispenser	White	31.25cm (H) x 31cm (W) x 13.22cm (D)	1 unit per case	N/A
