

When your clean can't be compromised

CRITICALCLEAN™

Advanced cleaning solutions for high stakes environments

Elevate cleanliness to critical standards

Designed for the sectors that promise to not compromise!

In environments where hygiene is paramount, using the right cleaning solutions is essential to meet the highest standards of cleanliness. Introducing our WypAll® CriticalClean™ wipes range, specifically designed to provide superior performance in critical environments and to unlock a new level of cleaning confidence. Let's explore how these wipes are an ideal choice where cleanliness is paramount.

Discover the precision: Key features making CriticalClean™ ideal for demanding environments

Unlock a new level of cleaning confidence with WypAll® CriticalClean™:

 <p>Chemical compatibility¹: WetTask™ has a broad chemical compatibility. Most WypAll® CriticalClean™ products seamlessly integrate with your chosen disinfectant or sanitiser solution.</p>	 <p>Color-coded cross-contamination control²: Our wipes come in various colours to segregate tasks to help avoid cross-contamination. These are available in a hygienic poly pack, providing protection from external contaminants.</p>
 <p>Efficient absorption: Absorbent materials rapidly soak up liquids and spills with ease, ensuring prompt and effective cleanup. These wipes have air pockets for superior absorbency.</p>	 <p>Durability: Designed with durable fibers that ensures each wipe is dependable, that can withstand rigorous use without compromising strength or integrity.</p>

Limitations of traditional cleaning methods compared to specialised cleaning solutions

- Laundered towels & rags can contain contaminants.
- Paper towel can leave lint, and paper remains behind.
- Many paper towels are not strong enough to hold upto general cleaning tasks, so we tend to use more.
- Open buckets used for cleaning & mixing chemical solvents for cleaning may allow the chemical to get close to the food sensitive area.

Unlocking the tasks perfect for CRITICALCLEAN™ solutions

- Sanitisation of food-contact surfaces when used with a compatible sanitiser or disinfectant.
- Cleaning and sanitising public high-traffic locations. Ideal for multi surface cleaning.
- The portable, reusable bucket allows you to control the chemical solution and saturation level needed.
- Effective wet wiping: Ideal for wet wiping, using your disinfectant or sanitiser for effective cleaning.

Know how WypAll® CRITICALCLEAN™ fits your industry needs

Healthcare:

- Ensure stringent hygiene compliance in high touch surfaces & high traffic areas.
- Our chemically compatible¹ solutions effectively manage various spills.
- From routine cleaning in common areas, to washrooms & wiping high touch surface areas, WypAll® Critical Clean™ helps you to maintain a hygienic environment with ease.

Food Service & Hospitality:

- Uphold strict hygiene standards in your premises and safeguard high-touch, high-traffic areas with ease.
- From cleaning liquid and viscous spills in common areas, bathrooms, wide range of surfaces and equipment, cleaning food prep surfaces, our products ensure comprehensive cleanliness of your entire facility.
- Help you ensure a safe working environment for your staff and leave a lasting impression on clients and customers.

Food Processing:

- Select wipes in our range are certified & suitable for use in food segment applications².
- CriticalClean™ are food safe and HACCP International certified making them ideal for cleaning, sanitising, and disinfecting food handling areas, food prep surfaces, equipment, and surfaces³.
- By effectively removing contaminants and reducing the risk of cross-contamination, WypAll® CriticalClean™ ensures a hygienic environment throughout the food processing facility⁴.
